“This Life is A Grand Illusion Created
By Our Thoughts And Desires.”

- Anthony Tomei

WEALTH SECRETS ...

Master You Are...

You MUST change your thinking or repeat your same old failing pattern time and time again. You are doomed unless you take control of your destiny. Perception is reality and you create your reality by the thoughts that vibrate from within your mind.

Even more so powerful is when you speak these thoughts into existence, so watch closely what you decide to speak from within. You MUST start to change your pattern of thinking and belief. Fail to do this and you've already failed. Beliefs that you currently hold to be true for yourself are limiting you from achieving untold wealth.

See yourself in your minds eye being wealthy, desire it, associate strong emotions to it meditate on it DAILY. Use your imagination then right down your goals and simply place them into consistent non-stop action toward your desired outcome and never give-up.

Create that momentum and you've just built the foundation of creating wealth.

“According To Your Belief, So Be It Unto You.”

-Jesus Of Nazareth

WEALTH SECRETS ...

Magical Belief...

You MUST believe that you can and will accomplish it. Belief is the universal remote to changing your reality or your life. Some beliefs are dangerous and then others are EMPOWERING. Experiment with different beliefs and you'll see the law of attraction in action. Your beliefs attract persons, circumstances to yourself and shape your reality.

Do you see how powerful a belief can be? Use Belief patterns of successful people and you can use this to your advantage. Some people believe that life isn't worth living so they put into effect the law of attraction and start attracting losers, maybe even drug abusers and others that share this same dis-empowering belief, they start associating themselves with these types of pe and then experience exactly what they put forth originally in their mind ! They created their reality from what they believe to be true. They don't even realize they've done it themselves. Belief is powerful stuff.

Not getting the results you want out of life? Simply change your beliefs.

"It's Not What You Know, It's Who You Know"

-Unknown

WEALTH SECRETS ...

Association...

Who you associate yourself with is another deciding factor in creating wealth. If you want to be rich would you associate yourself with people who are broke? Or would you associate yourself with people who are successfully wealthy? Association brings opportunity that helps create your desired outcome of being wealthy.

Join a country club or take up golfing. Most people who golf are successful wealthy people... I don't know why this is. Go to charitable functions and rub noses with some powerful people and get to know them. Also, dis-associate yourself with those who are negative and misfortunate. Misfortunate people have a tendency to bring that misfortune on you as well. Find positive people who are happy and have fortune in their lives and surround yourself with only these types of people. Befriend them.

Most of you may even have family members that you have to dis-associate from. am I saying hate your family members? NO. I am saying don't spend too much time around folks that bring you down or have the potential to bring you down. weed them out, and let some good grass grow.

"It's Good To Be The King!"

-Mel Brooks, From History Of The World Part II

WEALTH SECRETS ...

King Status...

To be treated like a king one must act as a king. Chin up, be confident and appear at ease you MUST act out the part or play the role. Dress to impress because first impressions are what sticks in the minds of people and decides on how they perceive you. Be aware of the energy that you emanate because if you're half-baked you will cause an uneasiness to fall on those surrounding you causing them to feel uncomfortable. Be confident, you'll inspire confidence in others. Sometimes you have to ease back from the crowd and step out of view for a time returning with a renewed perception from the crowd, this way you create a mysterious aura about you creating a persona of mystique. People will appreciate you more. You'll create interest and be welcomed with open arms.

Don't take any bull from anyone. Don't be nasty but respect your ideals and hold fast to Your principles and you'll be respected as well. Always take what appears to be negative and think of it as just another opportunity or open door to something even greater.

**Thinking positive through a negative experience or circumstance will bring fortune
And open up new possibilities. Control what life throws at you using your personal power.
Your Throne awaits you!**

“The Secret To Building The Great Pyramid Is Leverage”

-Anthony Tomei

WEALTH SECRETS ...

Leverage...

So far we've talked about building the foundation of wealth and greatness by using your thoughts and mind. Let me tell you how rich people do it. They have a system in place that never fails. They create a network or system, product or whatever you'd like to call it that uses others to create extreme wealth without trading their time for the money.

In other words... They work smarter, not harder. They don't go to 9 to 5 jobs.

They use leverage to achieve great wealth. While they are creating massive amounts of wealth others are calling it a scam, or just too good to be true. These “others” have limiting beliefs about how wealth is accumulated and think you MUST have a job and work harder, longer hours if you are to get rich. Remember how we talked about belief?

By creating or using a system that builds wealth for you and leverages the work of others to make an income in my opinion... Is the ONLY way to true riches. There are such systems and programs out there! Examples: EBay, The Stock Market, AmWay, Anything the owner automates while others do the work for him is leverage. He is freeing up his time for other things while others work hard to make him wealthy. You see how leverage works?

Simple isn't it?

My Son Is Now An "Entrepreneur"
That's What You're Called When
You Don't Have A Job.

-Ted Turner

WEALTH SECRETS ...

Freedom!...

Listen, what good is your job? I mean think about this for a moment. It pays the bills, gives you a sense of security, pays your mortgage, but you still can't seem to get ahead!

Not only that, but you give away your precious time (life) for a measly social security

After 30 years of 8 hours a day! Lets break this down... There are 365 days in a year.

That's 2,920 hours a year, times that by 30! That's 87 Thousand six hundred hours !!!

All that time spent stressing, getting up early, feeling tired and run down and having no

Energy to do the things you want in life because your time is being given to someone else?

Hey! What about you? Aren't you important? What about your kids? Your spouse?

Most people don't even make it to their golden years, don't you think you should start

doing things for yourself, making yourself rich instead of your boss? Living life now

while you're still healthy and young? It's a choice... You decide how your life will be.

Choose to live free, run your own life, take time off when you want to, live life !!!

Or... Are you satisfied with the little time off a year you get from your boss? 2 weeks?

2 weeks when? When your boss says so? Or when you say? It's your choice you know.

Emancipate yourself from the daily grind. FIND A WAY OUT!

“Words are, of course, the most powerful drug used by mankind.”

-Rudyard Kipling

WEALTH SECRETS ...

Communicate...

Communication is the key to power. Ronald Reagan was called a “Master Communicator.” So much that he caused the soviet union to re-think their policy. His words are a powerful Testimony of his legacy... “Mr. Gorbachev, TEAR DOWN THAT WALL!” Spoken like no other His words rang true when the former soviet union brought down the berlin wall which Separated East Germany from West Germany. He was to the point and direct without Hesitation and with extreme boldness. Boldness has a certain magic to it... It creates Something magical and unlocks doors that seem bolted shut.

Anthony Robbins is a respected and gifted motivational speaker, best selling author and CEO of many companies, He says.. “The Quality Of Your life Is As Good As The Quality Of Your Communication.” And he’s right. Your words are powerful to the subconscious mind, People react to words whether they be for good or for bad. Your tongue can either speak Life or death. You are a moving, living, breathing force and you have absolutely no idea Just how powerful you are! Communication is essential if you plan on being wealthy.

Be careful what you say... It has a profound effect on the lives of others, not only just yours But all you come in contact with. Choose your words wisely, watch your mouth.

"People Call Me Rude,
I Wish we All Were Nude,
I Wish There Were No Black Or White
I Wish There Were No Rules."

-Prince ... From The Song "Controversy."

WEALTH SECRETS ...

Controversy...

Controversy sells. No doubt about it. In order to get yourself or your product out into the Public eye you must have a very good publicity stunt or plan. Sex sells, always has, and always will. Controversy on the other hand makes huge waves, upsets people, makes a rather boring piece of information into a national news story.

People will talk about controversy and it will make the morning papers faster than any marketing firm can get it there. But with controversy comes your Pros and Cons that you will have to deal with. You'll be parting the red sea so to speak...

You will create two opposing sides to whatever the controversy created is.

But let me tell you it works, it works like nothing you've ever seen before, it's Bionic Marketing on steroids meets the terminator! So just be careful what you create.

This secret should be used with extreme caution and thoughtfulness before you go out creating a ruckus, better have a well thought out plan.

Controversy can catapult you into the limelight. BE READY FOR IT!
